

IN THE CLAIMS:

a. Please cancel pending Claims 1-7, without prejudice.

b. Please add the following new set of claims:

8. A sea-water pool, comprising:

a pool structure floating on a sea; and  
means for collecting and supplying deep-sea water to the  
pool structure.

9. The sea-water pool of Claim 8, further comprising means for  
mooring said pool structure at a fixed location.

10. The sea-water pool of Claim 9, wherein said means for  
mooring includes an anchor.

11. The sea-water pool of Claim 8, further comprising a  
propulsion device.

12. The sea-water pool of Claim 9, further comprising a  
propulsion device.

13. The sea-water pool of Claim 12, wherein said propulsion  
device includes a propeller.

14. The sea-water pool of Claim 8, further comprising a plurality of extensions protruding from said pool structure.

15. The sea-water pool of Claim 12, further comprising a plurality of extensions protruding from said pool structure.

16. The sea-water pool of Claim 8, further comprising means for draining said deep-sea water from the pool structure.

17. The sea-water pool of Claim 15, further comprising means for draining said deep-sea water from the pool structure.

18. The sea-water pool of Claim 8, further comprising a facility for enabling fishing from a side of said pool structure.

19. The sea-water pool of Claim 17, further comprising a facility for enabling fishing from a side of said pool structure.

20. The sea-water pool of Claim 8, further comprising means for generating and mixing air bubbles into the deep-sea water supplied to said pool.

21. The sea-water pool of Claim 19, further comprising means for generating and mixing air bubbles into the deep-sea water supplied to said pool.

22. The sea-water pool of Claim 8, further comprising means for solar power generation.

23. The sea-water pool of Claim 21, further comprising means for solar power generation.

24. The sea-water pool of Claim 8, further comprising means for wind power generation.

25. The sea-water pool of Claim 23, further comprising means for wind power generation.

26. The sea-water pool of Claim 8, further comprising a sea-water desalination plant.

27. The sea-water pool of Claim 25, further comprising a sea-water desalination plant.

28. The sea-water pool of Claim 8, wherein said means for collecting and supplying deep-sea water to the pool structure includes a check valve which only allows an upward flow of the deep-sea water.

29. The sea-water pool of Claim 27, wherein said means for collecting and supplying deep-sea water to the pool structure

includes a check valve which only allows an upward flow of the deep-sea water.

~~30. An onshore pool, comprising:~~

~~an onshore pool structure; and~~

~~means for collecting and supplying deep-sea water to the pool structure.~~

31. The onshore pool of Claim 30, further comprising a fish breeding plant and means for supplying deep-sea water to the plant from drainage of the pool.

32. The onshore pool of Claim 30, further comprising a fishing pond and means for supplying deep-sea water to the pond from drainage of the pool.

33. The onshore pool of Claim 30, further comprising a hydroponic facility and means for supplying deep-sea water to the hydroponic facility from drainage of the pool.

34. An onshore accommodation facility that includes means for collecting deep-sea water and means for supplying the water to the accommodation facility.

35. The onshore accommodation facility of Claim 34, further

comprising a fish breeding plant and means for supplying deep-sea water to the plant from drainage of the accommodation facility.

36. The onshore accommodation facility of Claim 34, further comprising a fishing pond and means for supplying deep-sea water to the pond from drainage of the accommodation facility.

37. The onshore accommodation facility of Claim 34, further comprising a hydroponic facility and means for supplying deep-sea water to the hydroponic facility from drainage of the accommodation facility.

38. An onshore dining facility that includes means for collecting deep-sea water and means for supplying the water to the dining facility.

39. The onshore dining facility of Claim 38, further comprising a fish breeding plant and means for supplying deep-sea water to the plant from drainage of the dining facility.

40. The onshore dining facility of Claim 38, further comprising a fishing pond and means for supplying deep-sea water to the pond from drainage of the dining facility.
